ABOUT ME

I am a software developer professional with a strong background in back-end development. I have completed my vocational degree in Back End from Najot Talim, where I maintained an impressive GPA of 100.0.

In terms of projects, I have worked on several exciting ventures, including the development of an Online Books Shop called "Books Appi" and a Restaurant Management System. Additionally, I have also contributed to the creation of a Magazine Shop Program called "Pos Desktop" and a Furniture Online Shop Magazine.

My technical skills include proficiency in Git, C#, .NET Framework, ASP.NET Core, ASP.NET Web API, ASP.NET MVC, Microsoft Visual Studio, Microsoft SQL Server (MSSQL), JSON Web Tokens (JWT), Redis, and ADO.NET.

I am highly motivated and eager to apply my knowledge and skills to contribute to innovative software solutions. With my strong educational background and diverse project experience, I am confident in my ability to excel as a software engineer.
